*Based on a 2021 analysis done by MoxiWorks that measured agent productivity and product usage in CY 2020 across 82 brokerages (the “Sample Pool”). Sales volume and closed transactions of agents in the Sample Pool who were determined to have engaged in high usage (compared to moderate or low usage of their peers within the same company) of MoxiEngage and/or MoxiPresent (the “Tools”) were measured against those agents in the Sample Pool who did not use the Tools. This was not a controlled study; correlation does not equal causation. Past performance does not guarantee future results. Market conditions may influence results and there is no assurance any agent will achieve the same or similar results.
