2. Sign Up for Dashboard: If you receive this email, the lead noted has request access to a home dashboard branded to you. You don't have to take any additional steps for that account setup, but you may want to reach out.

3. Searched Address Without Additional Action: This type of lead did not request a dashboard OR a contact request. They only searched for an address. This lead type can be identified because it will only showcase the addressed searched without the contact information.
